All west-bound trains have absolute right over all east bound-trains of the same or inferior class. See Rule 81.

NOTE.—Trains Nos. 1 and 2 will not be required to stop at Promontory to register or get clearance card.

FLAGGING.

Attention is called to information shown in vertical columns on face of this time-table to right and left of station names, denoting flagging distances as per Rule 99. These distances must be strictly observed.

SPECIAL RULES.

Standard clocks are located in dispatcher's office, Ogden, also at Promontory, Kelton, Terrace, Toano, Wells, Carlin, Winnemucca and Wadsworth.

Registering Stations are Ogden, Promontory, Kelton, Terrace, Wells, Carlin, Winnemucca and Wadsworth, where all trains must procure a clearance card or orders before leaving.

Terminals for trains 1, 2, 3, 4, 5 and 6 are Ogden, Carlin and Wadsworth. For all other trains terminals are Ogden, Terrace, Carlin, Winnemucca and Wadsworth.

Trains 213, 217 and 220 will carry passengers between Ogden and Corinne.

Trains must not be run from the instant of their departure from any station to the *instant* of their arrival at the next station in *less time* than given herein in columns headed "Minimum running time between Stations."

"Referring to Rule 12, concerning distant signals, on page 90, in book of Rules and Regulations: Distant signals are also used for indicating position of obscure switches. When a distant switch signal stands at 'Caution,' it indicates that switch in advance of it is open, and that trains must be brought to a stop before reaching the open switch. When it stands at 'Safety,' it indicates that the switch in advance of it is closed, and that trains may proceed."

Automatic block signals, Disc Type, controlled by track circuits, are located at east and west end of Vivian Tunnel, between Tonka and Carlin. All trains approaching and passing these signals will be governed by rules 1 to 12 inclusive in book of rules and regulations for the government of employés. Trainmen must not depend upon block system to protect their trains when they stop on the main line, but whenever necessary must see that trains are protected as per rule 99.
